TWO&HUMAN

Website Development for the Moffat Economic Development Authority

Proposal in response to RFP #2026-3. A simple, professional and affordable Phase 1 website that MEDA owns and controls, with a clear path to grow in Phase 2.

Date	**[DATE]**
Phase 1 summary	**$2,620 one-time** (design, development, document section, email setup and first-year domain) · **about $1,320 per year** in recurring costs · launch in February 2027

01 About TWO&HUMAN

TWO&HUMAN is a small, two-person web and digital marketing studio founded in 2026 by Julio Briones (web and digital marketing) and Mariam Neme (software engineering). We are based in Argentina and work remotely in English and Spanish. We are a new firm, and we say so plainly: we would rather earn MEDA's trust with a clear plan, honest pricing and full ownership for MEDA than with claims we cannot back up.

The RFP asks for a dependable partner, not the most elaborate website. That is how we work: simple sites that are fast, easy to update and fully owned by the client.

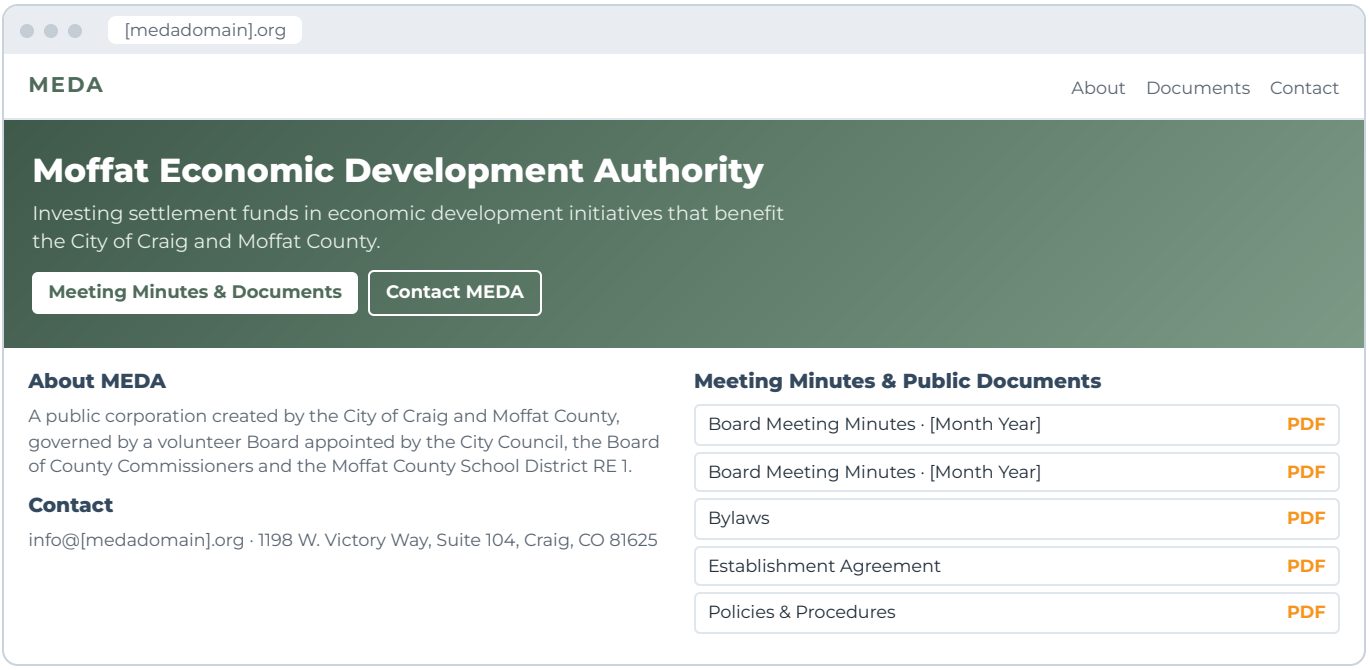

02 Our understanding of MEDA's needs

MEDA needs a credible public home by February 2027: who MEDA is, what it does for Craig and Moffat County, how to reach it, and **easy public access to meeting minutes, bylaws, founding documents and policies**. It needs a dedicated email address, staff who can upload documents without calling a developer, low ongoing costs, and full control of the domain, site and content. And it needs a base that can grow into business-attraction pages and marketing in 2028, without starting over.

03 Phase 1 approach

Requirement	How we will deliver it
Platform	**WordPress**, the most widely used website platform. It is open source with no license fees, and almost any web provider in Colorado or elsewhere can maintain it. We use a free, lightweight theme and free plugins only, so there are no paid licenses to transfer.
Landing page	One clean, responsive page: MEDA's name and purpose, a short description of its mission and role in economic development, contact details, and a prominent "Meeting Minutes & Public Documents" section. Tested on desktop, tablet and mobile.
Document section	A searchable document library organized by type (meeting minutes by year, bylaws, founding documents, policies and procedures), newest first. Staff upload a PDF, choose a category, and it appears on the site.
Email	A dedicated MEDA address (for example, info@ on MEDA's domain) on Google Workspace, set up with the records that keep email out of spam folders. Billed by Google directly to MEDA. Microsoft 365 is also possible if MEDA prefers.
Domain	No domain exists today, as Mr. Comstock confirmed. We will propose two or three short, available names and register the chosen one **in MEDA's name**. As a public corporation, MEDA may also be eligible for a free **.gov** domain; we can help apply if MEDA wishes (see optional features).
Hosting	Managed WordPress hosting on U.S. servers, with daily backups and a free security certificate (https). The account is in MEDA's name.
Accessibility	Built to WCAG 2.1 AA, the accessibility standard widely used for public-sector websites. Training covers how to publish accessible, searchable PDFs.
Training	A recorded one-hour video session for the staff MEDA designates, plus a short written guide: uploading documents, editing text, and where to find each account.

04 Concept mockup of the Phase 1 landing page

Concept prepared for this proposal with placeholder content. The final design will use MEDA's branding, text and documents, and will be approved by MEDA before development.

05 Timeline (launch in February 2027)

When	What happens
Week 1 (December)	Kickoff video call. Domain registered and email and hosting accounts opened, all in MEDA's name. MEDA shares content and documents.
Weeks 2 to 3	Design of the landing page and document section, shared for MEDA's review. One round of revisions.
Weeks 4 to 6 (January)	Development, document library set up and initial documents uploaded. Review on a private preview link.
Weeks 7 to 8 (February)	Final revisions, training session, written guide and summary of ongoing costs. Launch.

Estimated time for Phase 1: about 8 weeks from kickoff, around 40 hours of work. Holiday schedules are built in.

What we will need from MEDA

- A main contact for approvals, and the staff who will be trained.
- Mission and description text, or approval of a short draft we prepare from public information.
- Logo or branding, if any, and the documents to publish, ideally as searchable PDFs.
- Choice of domain name, and a payment method for the domain, hosting and email accounts in MEDA's name.

06 Pricing (U.S. dollars)

Service	Notes	Proposed cost
Landing page design and development	Design, development, responsive testing, accessibility review	**$1,800**
Meeting minutes/document section	Document library and upload of up to 50 initial documents	**$600**
Email setup	Google Workspace, 1 to 2 addresses, spam-protection records	**$200**
Domain registration, if applicable	First year, in MEDA's name, at cost	**$20**
Annual website hosting	U.S.-based managed WordPress hosting, billed to MEDA by the provider (estimate)	**$300 / year**
Annual maintenance and support	See below. Billed monthly at $75, or yearly	**$900 / year**
Other required costs	Google Workspace, about $100 per address per year, billed by Google (estimate for 1 address)	**$100 / year**
Total initial Phase 1 cost	**One-time work plus first-year domain**	**$2,620**
Estimated annual recurring costs	**Hosting, maintenance, email and domain renewal**	**$1,320 / year**

Payment: 50% of the one-time work at kickoff and 50% at launch. Hosting, email and domain are paid by MEDA directly to each provider, at their prices, with no markup from us.

Annual maintenance includes

- WordPress, theme and plugin updates, and security monitoring
- Checking that daily backups run, and restoring if needed
- Up to 1 hour per month of content help (uploads, text changes)
- Replies within 1 business day; same-day response if the site is down

Rates

- **Hourly rate** for work outside maintenance: **$60 per hour**, always quoted and approved in writing first.
- **Phase 2 pages:** about **$350 per standard page** with MEDA-provided content. See section 09.

Optional features

- .gov domain application support: $150 (the domain itself is free for eligible public entities)
- Simple logo or wordmark, if MEDA has none: $300
- Meeting calendar with upcoming Board meetings: $250
- Email newsletter sign-up (free tier of a newsletter service): $200
- Visitor analytics and Google Business Profile setup: $150

Assumptions and exclusions

- MEDA provides final text, branding and documents; we do light editing.
- Two rounds of revisions on the design and one on the final site.
- Scanned documents that need accessibility repair are quoted separately.
- Professional photography and paid stock images are not included.

07 Website ownership and transfer (RFP section 7)

Requirement	Our commitment
MEDA owns or directly controls its domain	**Yes.** Registered in MEDA's name, with MEDA's email as the owner contact.
MEDA has admin access to website and hosting	**Yes.** All accounts are opened in MEDA's name. We work as an invited user and can be removed at any time.
MEDA retains ownership of content and documents	**Yes.** All content, documents and the site itself belong to MEDA.
Content can be exported or transferred	**Yes.** WordPress exports everything. On request, we deliver a full backup of files and database at no cost.
Third-party software, licenses or transfer fees disclosed	**Yes.** WordPress, the theme and the plugins we use are free and open source. No licenses, no transfer fees. Recurring third-party costs are listed in section 06.
Can be maintained by another qualified provider	**Yes.** Standard WordPress, with no custom code that locks MEDA in.
Limitations on transfer	**None** from our side. If MEDA changes providers, we help with the handover.

08 Communication and ongoing support

- **One point of contact:** Julio Briones, by email, phone or video call. Mariam Neme handles technical issues.
- **Working hours:** Argentina is four hours ahead of Mountain Time in winter, so our day covers MEDA's morning and early afternoon.
- **Requests:** sent by email; we reply within 1 business day. If the site is down, we respond the same day.
- **Monthly check:** a short email each month confirming updates, backups and any changes made.
- **Interviews:** we are glad to meet the Board by video call. If an in-person interview is required, please let us know.

09 Response to Phase 2 (from January 2028)

Phase 1 is built so Phase 2 adds pages instead of starting over. WordPress lets us add sections such as About MEDA and leadership, Board agendas, business resources, available properties, workforce, community and quality of life, infrastructure, incentives, news and success stories, and business inquiry forms, all using the same design and the same document library.

Phase 2 item	Estimated cost
Standard page (MEDA provides content)	**about $350 per page**
Starter package: 6 pages plus a news section	**about $2,400**
Available properties listing with filters	**$1,500 to $2,500**
Business inquiry form routed to MEDA staff	**$300**

Optional marketing assistance (separate from website development): monthly business-attraction content for LinkedIn and Facebook, a news article each month, and a simple monthly report, **from $750 per month**. Paid advertising budgets would be separate and approved by the Board.

10 Qualifications

RFP item	Our answer
Description of the business	A two-person web and digital marketing studio founded in 2026. Julio Briones leads web and marketing; Mariam Neme, a software engineer, leads development and technical support.
Examples of completed websites	**[Real links only, with each person's role. If none are ready, say so and point to the concept mockup in section 04.]**
Maintenance and content management	We build sites that clients update themselves, and we train staff to do it. Maintenance covers updates, security, backups and small content changes.
Public-facing document libraries	We have not yet built one for a public body. The document section in this proposal follows common practice for public-sector sites: organized by type and year, newest first, searchable and accessible.
Small businesses, nonprofits, public organizations	Our work focuses on small, owner-run businesses. MEDA would be our first public organization, and we would treat it as a flagship project.
Client references	As a new firm, we do not yet have client references to offer.

11 Why TWO&HUMAN

- **Affordable now and later:** $2,620 to launch and about $1,320 per year, with every third-party cost disclosed.
- **MEDA owns everything:** domain, hosting, email, website and content, with no licenses or transfer fees.
- **Easy to manage:** staff can upload minutes and documents without a developer, with training and a written guide.
- **Ready to grow:** Phase 2 adds pages on the same foundation, priced per page and approved by the Board.
- **Direct and honest:** two founders who answer personally and say plainly what we have and have not done.

> Thank you for the opportunity to submit this proposal. We would be glad to answer any questions or meet the Board.
